U. S.—Teutonic War News

The American steamship *Hilsonian* has been destroyed by a German submarine off the Italian coast with a loss of four lives. News of the disaster was received in a cablegram to the owners in New York. The *Hilsonian* was a vessel of 2,300 tons, carrying a cargo and ship was \$1,000,000.

Secretary of the Treasury William G. McAdoo told 500 bankers and bond dealers at a banquet at Chicago that it is a mistake for every man in the country to get busy. The "liberty loan," he asserted, must be taken on as a "blow strike for liberty" throughout the world.

The National Guard will be called in the colors in three installments, beginning on July 15, for early service in Europe. The units in midwestern states will be called off on the following dates: July 15, Iowa; Michigan and Wisconsin; July 22, Illinois; August 5, Indiana and Kentucky. These dates were fixed at a general staff conference held at Washington.

The British admiralty announced at London that American destroyers had arrived in British waters. A crowd of several hundred persons cheered the destroyers. The American navy's actual entry into the war zone has already been productive of a brush between a destroyer and a German underwater boat, but the result of it has not been made public. The destroyer squadron put to sea again for the hard work that is before it.

At the conclusion of a two-hour conference with General Woodhams, Col. Theodore Roosevelt announced at Albany, N. Y., that he had accepted the president's offer of a general commission in the United States Army. Roosevelt's acceptance was a significant event in the war effort.

Labor and capital must cooperate in a sacrifice. This was the keynote of the address of Samuel Gompers, president of the American Federation of Labor, before a joint meeting of American capitalists and labor leaders in Washington.

President Wilson, following a conference with Secretary of War Baker, issued an executive order at Washington authorizing the raising of 158,000 men in four increments, to bring the regular army to full war strength.

Foreign
Although many of the striking munition workers in the Manchester district have returned to work, the strike has spread to Nottingham, where a number of men have gone out. The Daily Express says that it is obvious that an organized plot exists to hinder the output of war materials.

The cabinet crisis in Russia may be considered as settled. A declaration of the government's policy, accepted by the representatives of the council of workers and soldiers delegates, with nearly unanimous approval, was signed by both parties at Petrograd without delay. It has been decided to take into the cabinet five representatives of different socialist groups.

Domestic
Four soldiers on police duty in the Pittsburgh district were removed from their camp to hospitals, suffering from the effects of poison, while the military authorities investigated the death of Lieut. W. F. Corcoran and the illness of 12 other Guardsmen.

One hundred and fifty thousand Sunday schools in the United States have been requested to observe Sunday, July 1, as "Patriotic Sunday." The campaign for the general observance of the day is being conducted by the International Sunday School association, which has its headquarters at Chicago.

The textile strike at Lawrence, Mass., among the colored crafts which has affected 15,000 of the Wood, Washington and Ayer mills, assumed a new phase when 500 operatives organized a movement to demand an eight-hour day.

Representative Braden of the United States and Canada met at Chicago in an important conference. Several speakers advocated the establishment of the government of a standard of living and the fixing of a tariff on the staple products.

European War News

All of the southern part of Palestine has been laid in waste by the Turks, according to a British dispatch printed in the London Daily Telegraph.

The British troops completed the capture of the village of Bellecourt, according to the announcement from the London war office.

In the Canadian assembly last posted at Ottawa, that of the names of two Americans who died of wounds, W. C. Clark, 140 Avenida Street, San Francisco, and A. Thompson, Springville, Utah.

The Home War office announced that as a result of the offensive begun this week the British have captured 3,375 prisoners, a mountain battery and 30 machine guns.

The British have captured most of the ground they had lost in Bellecourt and have established new posts on the west side of the village, says a dispatch to London from Reuters' correspondent at British headquarters.

A manifesto to the Russian army issued by the council of soldiers and workmen's delegates at Petrograd urged the continuation of the war against the central powers and stated that a separate peace is impossible.

Washington
The government at Washington, if given power to fix maximum food prices, would exercise the authority only to break up cartels and to prevent extortion, Secretary House explained in a letter replying to an inquiry.

The senate at Washington adopted the conference report on the war army bill, accepted by the house, and sent the measure to the president for his signature. The vote was 65 to 8. The war department will at once set in motion the machinery for registration of all men between twenty-four and thirty years of age, inclusive.

In response to a suggestion by Senator Jones of Washington that the new selective draft army help harvest crops, Secretary Baker disclosed that it is not expected to call out the first 500,000 men before September 1 because of the depleted state of our supplies, and that there will therefore be no appreciable interference with the labor supply of the country until that date.

Housewife Leater Kitchin announced in the house at Washington that the treasury department had notified her it would be necessary to raise \$2,245,000,000 instead of \$1,850,000,000 by the war revenue bill now under debate. He urged support of new proposals to raise the income surtax increases on sums above \$10,000 as now contained in the bill by one-fourth.

American consumers will have to do themselves canned soups and soups of all kinds for a time, under a decision of the war-commerce unit at Washington, which cuts off the supply of cans to packers of those foods. The committee holds that the shortage of tin makes it imperative that cans be supplied only to packers of perishables and of foods absolutely necessary to the national existence. The order will be effective for 60 days.

Representative Gardner of Massachusetts has resigned from congress to enter the army. He has been ordered to active duty as a reserve officer.

Carrying no press censorship nor war prohibition clauses the senate at Washington passed the administration espionage bill by a vote of 77 to 33. Important sections curbing activities of enemy spies remain in the bill. The amendment forbidding the use of secret intelligence for the manufacture of munitions was stricken from the bill by a vote of 4 to 3.

H. C. Miller, a Buffalo manufacturer, was made assistant chief of the Bureau of Foreign and Domestic Commerce at Washington.

WORK OF COMMUNITY CLUBS

"Betsey Ann Association" of Brighton, Illinois, Does Much to Boost Little Village.

By P. G. HOLDEN, former mayor of Iowa State College. Community clubs play an important part in the development of civilization. They present the greatest of opportunities for the co-operation of town and country to the lasting benefit of each. They enable the residents of the town and those of the rural districts to get together and do things for the welfare of all that otherwise would not be done.

This availing of common labor in community clubs brings the members of the community closer together, socially, industrially and economically. In moments of disaster every small town should feel itself interested. It can succeed in these emergency times by enlisting the services of community workers. Their work may take one form, or it may take another, but the life of any community is dependent upon having something to do that is worth while.

By the assistance of business the town of Brighton, Illinois, a village of only 200 people, has secured a building in the way of community road building.

For ten years the people of Brighton have been giving hands with their rural neighbors in community work that not only has benefited the community, but has given the town a commercial and educational standing equal to that of many cities in these parts.

The community organization which has thus united town and country, bears the unique title of "The Betsey Ann Association." It has given the community 27 miles of excellent roads, a \$125,000 cemented high school, a \$100,000 community building, and a \$100,000 school building. It has also incorporated a fire department, a telephone system, and a library. Each year 100 members, divided about equally between town and country, and its membership is only 25 cents. The executive committee consists of nine members, of which not more than five can be residents of the town.

The first improvement inaugurated by the association was the purchase of a fire bell. This bell was christened by a telephone operator, Miss Nell Planagan. She gave it the name of Betsey Ann, which title has since passed to the association.

During the second week of August, each year, the association holds a two-day picnic in a large tent. Concerts, dramas and other forms of entertainment are given by local people from both town and country. These picnics are always attended by 2500 or 3000 people. All concessions are run by the association and all the profit goes into the treasury. About \$500 is realized each year. The money is spent in road improvement.

One year the association built a mile of rock road, extending westward from the town hills. Each year a contract for dragging, at frequent intervals, nine different roads, for a distance of three miles from town, is awarded. Each member of the executive committee has charge of a three-mile strip. An appropriation of \$400 is annually made for this purpose.

These 27 miles of good roads are the visible results of the Betsey Ann association. They make it possible for Brighton to visit and to entertain her neighbors. They connect the towns with the farm and make the interests of one the interests of the other. They have made possible the community building. They have made possible a high school for both town and country children, from which graduates are admitted to any college.

Wheat Used in Argentina
Because some roads in Argentina have deeper dust in summer and deeper mud in winter than any others in the world, the wagons used on them have wheels from six to six-and-a-half feet in diameter.

Work on Roads in 1917
During 1917 the total road and bridge expenditures in the United States amounted to about \$282,000,000, of which probably not over \$15,000,000 represented the value of the labor and convict labor.

4th Dist. J. M. LINSEY

We were authorized to announce Maj. Henry H. Denhardt, of Warren County, a candidate for Congress from the Third Congressional district, subject to the action of the Democratic primary to be held in August, 1918.

It's a good thing to hang out the American flag in the front yard this spring, but as a practical demonstration of patriotism a potato patch in the back yard in the face of foreign war is even better.

\$2. per Minute.
If \$2 a minute for every minute since the birth of Christ had been set aside in a war chest fund for the U. S. government it would but slightly exceed the \$2,000,000,000 which the government proposes to raise in the new liberty loan. It would have taken until 1902 for the necessary \$2,000,000,000 to have been reached by the constant addition to the chest at the \$2 a minute rate. (Cin. Eng.)

BOOMING!
The Big Automobile Contest Growing Popular.

NOW IS THE TIME TO GET IN.

Now is the time to enter the Green River Republican, Farmers Home Journal and Merchants Contest, or to get a flying start in votes if you have already entered the race. Until Saturday, June 9, you will get 17,500 Extra Votes on each of the first five yearly subscriptions to the Green River Republican you secure. For the five yearly subscriptions the extra votes alone will amount to 87,500, and the regular schedule of votes will also be given. Count up and see for yourself—a total of 92,500 votes for five yearly subscriptions to the Green River Republican.

The regular schedule of votes will be issued as the subscriptions are turned in, and a certificate for the extra votes will be mailed to each contestant at the close of the special offer, June 9. As no contestant will be given credit for more than five extra certificates, all who take advantage of the special offer will have an even start, so far as extra votes are concerned, while those who neglect it and start later will be badly handicapped. Remember, this is the one best opportunity to get a big number of votes for a little bit of effort.

ENTER CONTEST NOW.
If you have been thinking of entering the contest, make up your mind to act at once. The time spent thinking it over can be used to get the votes that will make you a winner. Remember, it does not cost anything to enter the contest. Take advantage of the extra vote offer and get a winning start in the race. Take the first step and the prize is half won. Send in your nomination today.

Bread or a Stone?
The federal farm loan board has fixed five per cent as the rate of interest the farmer will be expected to pay. If the design of the farm loan law was to furnish cheap money to the agriculturist, rather than to furnish a lot of high salaried jobs, the rate should have been placed at a more attractive figure. The government borrows money at two and three per cent. Cities rarely pay more than 4 1/2. Why then should the farmer with the best security in the world, pay five? He asked for bread and they have given him a stone.

W. C. Embry.
In this issue will be found the announcement of W. C. Embry of Flatwoods precinct, as a candidate for the Republican nomination for county judge of Butler county at the August Primary 1917. Mr. Embry is 50 years old and has been a farmer most all of his life, except about ten years in which he was engaged in the merchandise business.

Mr. Embry comes from one of the largest Republican families of the county. He is a man of much intelligence, honest and fair in all his dealings and a man of good business ability and a safe man to look after the financial affairs of the county. He takes the lead in his vicinity of the county in all public questions in the way of settling disputes and differences between his neighbors. He is a leader in church and Sunday school work.

Mr. Embry is not the candidate of any faction or clique and is making his race upon his merits and qualifications and his nomination will add much strength to the ticket in the general election and will make a safe and sound man to put at the head of county affairs.

Attorney General M. M. Logan will resign his office to head the State Tax Commission, and the tip is out that he will get in the race for Congress in the 3rd District.

OUR SOLDIER BOYS
At Lexington Write Interesting Letters Home.

RECEIVE APPLAUSE AT CHURCH.
Lexington, Ky., May 14.
Dear Editor:—

Just a few lines about the Butler county boys of the National Guard. Owing to the inclemency of the weather we haven't been able to do very much drilling the last few days. Some of the boys have had sore arms resulting from the vaccination and inoculations for Typhoid. Yesterday quite a crowd answered "church call" and were driven to the First Baptist Church in a large truck and automobiles.

A burst of applause from the congregation greeted the boys in khaki as they entered and continued until the last one was seated. Throughout the services complimentary remarks were directed at the soldiers. The president of the men's bible class said: "You boys have given us the second largest attendance ever recorded in the history of the Sunday school, and words cannot express our appreciation." A more beautiful site could not have been selected for a camp, nor could we be near a city whose people are more courteous than the citizens of Lexington.

Loyally,
E. E. FISHER.

Camp Stanley,
Lexington, Ky.
May 16, 1917.
Green River Republican.

Dear Editor:—Just a few words from the boys in the 3rd Ky. Regiment.
We have a beautiful camp located on the Versailles pike two miles from Lexington. This site has been chosen by the U. S. Government as the permanent mobilization camp for the new conscript army that is now raised in Kentucky. We have a nice bunch of sore arms from our vaccinations and typhoid treatments. Private Leach has suffered more than any of the boys but is out again and says he is feeling fine.
Corp. Daugherty has been promoted to Q. M. Sgt. Pvt. Sgt. Phelps of L. Co. to Duty Sgt. Pvt. Clifton Phelps of L. Co. to Pvt. first class. Pvt. Murrel Wadde of this Co. will transfer to H. D. Q. S. Co. where he will play alto in 3rd Ky. band. Pvt. Chester Helm left to-day for home where he will receive a dependent relative discharge. Pvt. Helm was a member of the 3rd Ky. band and they regret very much to lose a man of his ability.

We want to advise the young men of Morgantown to join the army now. Do not wait to get drafted, report to Lt. Malcolm B. Crump at Bowling Green, Ky. and join A. Co. 3rd Ky. Inf. and be with the boys from home. Dont be a slacker.
A friend, Co. A. 3rd Ky. Inf.

Dr. Frederic Jacobson says 75 per cent of women need Phosphates to give them Strong, Healthy, rounded figure and to avoid Nervous breakdown.
Thousands of women grow strong in Nature's way.

"Consider the Lillies of the Field, How They Grow."
The life of the lily is but a few weeks or months. The life of man is thirty score years and ten. But to live and life in its fullness, women like the lily, must be nourished by those same vital elements which nature provides for nourishing every living thing, and these include the valuable phosphate so often lacking in the usual food we eat today. Argo-Phosphate is rich in these wonderful elements. It contains them in concentrated tablet form which is easily taken and quickly assimilated and absorbed into the system, and from youth to old age, builds and rebuilds body and brain in beautiful harmony with Nature's perfect plan. That's why Argo-Phosphate makes good solid flesh and muscle.
SPECIAL NOTICE: Argo-Phosphate contains the natural phosphates which thousands of physicians are prescribing daily to build up thin, pale, colorless and any woman who desires a well rounded and developed form, and to cure from her druggist, this new drug which is inexpensive and is dispensed by any reliable druggist with or without a doctor's prescription. If your druggist will not supply you, send \$3.00 to the Argo Laboratories, Inc., 200 St. Atlantic St., and they will send you a two weeks treatment by return mail.

A BUTLER BOY
Digging His Way Through the Woolly West.

IDAHOME COMING RAPIDLY.
Idaho, Idaho, May 8, 1917.
To the Green River Republican, Morgantown, Ky.

As I hear quite a bit about my friends and relatives in Kentucky, through the columns of the Republican, I think that I will try to give them some knowledge of myself and what I am doing and my corner of the world through the same medium. I left Kentucky May 5, 1916, and arrived at Idaho, Cassia county, Idaho, May 20, and have been here ever since.

Idaho is a new town not yet a year old and is growing so fast that one can hardly recognize the place after being away a week. When I came here, Idaho was only a postoffice and a little "one boss" store. The O. S. L. R. R. built in last fall and a town started. We now have one lumber yard, one retail feed, coal and produce Co., one general store, one pool hall and barber shop, two restaurants and stock yards. The O. S. L. is building a \$10,000 depot and there is an implement and hardware house almost completed and a harness and shoe shop under construction. Work will begin on three elevators in a few days, two or three lumber yards, a newspaper building, another pool hall, a hotel, a \$5,000 school house and two or three residences. This is a great wheat country. There were 250,000 bushels of wheat shipped out of here last fall and winter which was about one half that was raised in the Raft river valley. It is estimated that there will be 1,000,000 bushels to ship from here this fall and winter. Raft river is about 65 miles long and a man can see the other part of it with his eyes. It is a nice valley. There is not enough rain to grow wheat and raising there is not much to be done. The water here will be worth from \$75.00 to \$100.00 per acre.

There is not one mile from town to good piece of ground as there is in the valley. I have been doing some carpenter work but am working for the Idaho grain and produce company now at a salary of \$75.00 per month; there is a great demand for labor here now and wages run from \$2.50 to \$3.50 per day.

This is the wild west as nearly as one could find it now. Cowboys, shepherders, great droves of cattle and horses. There are wild horses in the mountains, a few deer, an elk or a bear now and then, coon and jack rabbits galore. This country was visited by Lewis and Clark in 1804 and Idaho is on the old famous Oregon trail, and you can still see camp wagons with a trail wagon of household goods and a cow tied behind, a resemblance of the old days. I would like to know where some of the boys are; Azro Webster, Oden and Herman Womack, the Wade boys and a few others. With best wishes to the Republican, all my friends and relatives and the candidates, I am
Yours truly,
Fred Mayhugh

Girls Have Pretty Face And Beautiful Complexion
An Atlanta man makes new discovery that makes an old face look years younger. If your skin is dark, brown, or sallow with freckles or blemishes, just use a little Cocoon Skin Whitener. It's made with coconut oil and is perfectly harmless. A few days' use will improve your looks 100 per cent. The worn-out skin comes off evenly, leaving no evidence of the treatment, the new healthy under-skin appearing a lovely new complexion.

Just ask your druggist for an ounce of Cocoon Skin Whitener, and if he will not supply you, send twenty-five cents to The Cocoon Co., Atlanta, Ga., and they will send you a box by return mail.

If your hair is hard to comb, is kinky, nappy, and will not straighten, use Cocoon Hair Dressing and it will become straight, soft, and glossy in a few days. It is made with a special hair oil, and is the best hair dressing ever sold. 25c for a large box.

Who Shall Control?

Officials of the Department of Agriculture feel that the food problem has resolved itself into a matter of control by either the government or the speculators. The speculators now are in command, and it will require the passage of the pending legislation to overthrow them. The speculators have always been in command and will always control the markets of the world until the law makers of the country put a stop to stock gambling. President Wilson can stop it. Will he do it?

Busy Times on the Great Lakes.
Navigation on the great lakes is now open, and the familiar sound of steamboat whistles is indeed a welcome one to many. For not only do the steamers afford relief from the freight congestion but also furnish a most comfortable mode of travel for passengers.

Officials of the C and B lines which operate the great ship "Seandbee" and steamers "City of Buffalo" and "City of Erie" daily between Cleveland and Buffalo, predict that this season will surpass all others in volume of passenger and freight traffic. Never has business started with such a rush which surely reflects the general prosperous condition of the country.

Vacation trips which afford change from the every day scenes are regarded as essential by the American people, and thousands are now turning to the great lakes for the shimmering triply water.

Telephone Troubles

BELL Telephone employees are constantly trying to prevent trouble of any kind in the workings of the equipment, and to repair such troubles as soon as possible after they occur. Subscribers are asked to report trouble immediately, and to exercise a reasonable patience while it is being cleared. If you do not see a man actually working on your telephone, it does not mean that you are not receiving proper attention.

The difficulty may be at the switchboard, in the cable or at any one of several other places. Trouble may be at work hunting it down. It is always our first consideration to clear troubles promptly.

At the Churches
Last Sunday was Methodist day at Union church, Rev. Shantzbacher giving way to Rev. Adams the presiding Elder, who preached Saturday night, Sunday morning and Sunday night in his usual fluent and forcible manner. A quarterly meeting was held and the sacramental service observed in connection with the preaching. The Rev. Adams also preached on Sabbath afternoon to the people of Pleasant Rock.

During the war period let us build up the churches in our homeland. Rev. Davidson preached at Pisgah church over in Warren and at Woodbury at night and was nicely entertained by the Hudnalls and Coles across Barren and by J. O. Gibbs at Woodbury. Aunt Cynthia Stewart is resting somewhat easily in her present affliction.
The men's meeting at 4 P. M. was held, and C. E. Society at night. Rev. LaFayette Winchell, Baptist, preached at Cool Springs.

Catarhal Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it has a tendency to close, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of catarrhal deafness are cured by the use of the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by HALL'S CATARRH REMEDY. Circular free. All Druggists sell. Y. J. CHAMBERLAIN & CO., FAYETTE, KY.
